Sterinol

"Protects your hands with each application without the use of water"

Antiseptic product to avoid transmission of pathogens

Waterless disinfection

Kills 99.9% of bacteria on hands within 30 seconds after application and kills 99.99% of germs in a minute.

Hypoallergenic- Low potential for skin irritation

Ideal for use in hospitals, offices, and schools

Helpful in prevention of COVID19

Quality that you can trust

Our hand sanitizers help reduce the risk of infections and contamination by its high concentration of alcohol. With alcohol levels ranging between 70% to 80%, our sanitizers hold an excellent germicidal activity that fights multi-resistant pathogens such as MRSA and VRE. Our products stand out with a smooth and gentle feeling that comforts and protects your hands with each application due to its rich emollient formulation.
